

BACCARAT

How To Play

"Baccarat" is a card game. The object of Baccarat is to obtain a hand with a point total closest to 9. In the game, Aces are worth 1; Ten, Jacks, Queens and Kings are all worth zero (0); and each card less than Ten is worth its face value.

The player may bet on the designated Player, Banker and/or Tie, Pair options. Initially, two cards will be dealt each to the Player and Banker positions. If the total value of the cards is more than Ten, the right digit of the total is used as the total value for the hand. If either the Player or the Banker has a total of 8 or 9 on the initial cards dealt they both stand and no more cards are dealt. The Banker must stand on total of 6 and 7 when the player has a total of 6 or 7 on the initial cards dealt.

Third Card Rules

The following Baccarat rule chart governs when the player and/or the banker will automatically be dealt a third card in the Baccarat game. However, if either the Player and/or Banker have a total of 8 or 9, they both stand. This rule overrides all other rules.

For the Player:

Point value of the first 2 cards:	
0 - 1 - 2 - 3 - 4 - 5	Draws a card
6 - 7	Stands
8 - 9	"Natural hand", no further draw.

For the Banker:

Point value of the first 2 cards:	Draws when the player's 3rd card value is:	Does not draw when the player's 3rd card value is:
0 - 1 - 2	Always draws a card	
3	0 - 1 - 2 - 3 - 4 - 5 - 6 - 7 - 8 - 9	8
4	2 - 3 - 4 - 5 - 6 - 7	0 - 1 - 8 - 9
5	4 - 5 - 6 - 7	0 - 1 - 2 - 3 - 8 - 9
6	6 - 7	0 - 1 - 2 - 3 - 4 - 5 - 8 - 9
7		Always stands
8 - 9		"Natural hand", no further draw.
